GEORGE ALLEN would help China win the fight for Clean Energy jobs.

Allen said he supported giving China permanent access to U.S. markets. Now, China cheats, unfairly propping up their renewable energy companies and costing the U.S. thousands of clean energy jobs.

Allen co-sponsored an amendment to undermine wind tax credits, and now vows to completely eliminate these critical tax incentives that keep clean energy jobs in the United States. One company moved a major project from Virginia to Spain, taking good-paying jobs with them, because of the possible loss of these tax credits.

Even Allen's Republican colleague Senator Olympia Snowe said that, without the tax credit, China is poised "to capture the entire industry." *The New York Times* -8/2/12

GEORGE ALLEN

A good choice for China. A bad choice for Virginia.

George Allen

Voted to give \$39 billion in tax breaks to companies that export jobs. (S. Amdt. 3134, Senate Vote 90)

Co-sponsored a measure to gut wind tax credits and now wants to end them completely. Even Republicans say this could enable China to capture the entire industry. (HR 6, Senate Vote 150, 6/22/05; Richmond Times-Dispatch, 3/29/12; New York Times, 8/2/12)

Said he supported giving China permanent access to U.S. markets, which led to thousands of American clean energy jobs moving overseas. (Richmond Times Dispatch, 10/29/00; Economic Policy Institute, 9/20/11)

Tim Kaine

Supports eliminating tax breaks for companies that ship American jobs overseas, including clean energy jobs.

Supports cracking down on China's unfair trade practices, including currency manipulation, which cost America jobs in clean energy and other sectors.

A proven job creator—here in America, here in Virginia. Under Kaine, Forbes named Virginia "Best for Business" for four consecutive years.
